Somfy Solutions for Green buildings

Somfy Commercial Building Solutions for Natural Ventilation, Light Management, Thermal Insulation, and Energy Savings

Offices are now places where most employees spend the majority of their working hours. So it is essential that they are designed and built to provide maximum comfort for their occupants. Somfy contributes to the development of bioclimatic facades, for all types of buildings so that you have to no longer choose between comfort and energy savings.

Somfy provides automation solution for:

- External Vertical Screens
- Interior Window Coverings
- Projection Screens
- Window Openers
- Exterior & Interior Venetian Blinds
- Control systems for commercial building
 - Stand alone
 - Integrated on KNX or other protocols

Automatic shadings:
return on investment

For just 1% to 2%
of the total building cost,
20% to 40% energy savings.

Somfy Securing the ACCESS

Somfy for Securing the Access in Malls, Infrastructure Space & Strategic Installations

Somfy securing the tertiary access

- Barriers
- Bollards

- Axle Breakers

Somfy automation in Parking Management System & Parking Guidance System

- Create smooth flow of parking traffic and increase footfall
- Minimizing entry and exit traffic blockages
- Provide occupancy availability status with online reports
- Simplified and customized programmable ticket printing
- Parking guidance system can satisfy wide range of vehicle counting needs from monitoring space availability in small car parks to the integrated management of large multistorey car parks with software control signs, status monitoring and reporting

Benefits of motorization

Comfort : Never have to step away from the comfort of your sofa to manually control your curtains. A click of remote is all it takes

Convenience : It's easy to adjust large & hard to reach coverings. Somfy designed solutions offer ease of operation, allowing you to effortlessly control the light & view

Safety : Remove cords from the blinds and curtains, and don't be worried about your child running around

Protection : Keep your indoor temperature cool and protect your furnishings from the harmful sunrays

Longer fabric life : Operating your curtains and blinds automatically will ensure they remain pristine and free of any finger marks

Energy Savings : With Dynamic Insulation by Somfy, the house responds automatically to climatic variations to save energy and enhance comfort in every season
